#### **Brief description of Project and Services Provided:**

Calderstones School is an 11-18 co-educational school of about 1,500 pupils with around 250 in the Sixth Form. It is situated in South Liverpool on the edge of Calderstones Park, famous past pupils include John Lennon, Steve Coppel; , Les Dennis, Joe Royle & Brian Barwick.

Focus Fire & Security were the appointed security contractor for the recent £12 million PFI scheme to upgrade all of the facilities. Our remit was to design & install security systems for the project, including a purpose built Science block with 15 labs and separate Sixth Form Centre located in one of the two Grade II listed buildings on site, also a new Arts Wing containing 21 classrooms, four Art rooms, three Music rooms and Drama facility and a new multi purpose Cafeteria. There is a Design & Technology Wing with eight workshops and two classrooms an IT block & two Gymnasias. In all, there were 19 individual security systems with a further 28 monitored cameras and 44 door controllers connected via high tech PC based systems.

This was a very challenging project. The Calderstones site is a cluster of 19 separate buildings covering an area of some 18 acres. Four of the building are grade 1 listed and the school itself is steeped in history. Focus were retained by the school and are the current security maintaining company

**Contract Value:** £117,000

**Contract Duration:** 18 Months

#### **Client Reference:**

**“Focus Fire & Security were contracted to provide the full installation with on-going maintenance and call outs for all of our security systems within the school premises covering some 18 acres. We have been delighted with the design of the security systems and the ongoing service provided by their maintenance team”.**
