

Contact: Tony Watts

Position: Project Manager

Project Name: BSF Liverpool Alsop High School

Client: 20/20 Liverpool & EMCOR Engineering Services

Telephone: 0161 492 5662

Security Services Provided;

- **CCTV**
- **Fire Alarms**
- **Disabled WC Alarm**
- **Intruder Alarms**
- **Induction Loops**

Security Contract Value: £77,000

Alsop High School has recently undergone a multi-million pound plan to transform the school under the Liverpool's Building Schools For The Future (BSF) programme. The £17.5m scheme will also mean the 82-year-old school's existing premises refurbished and the playground area improved.

Focus Fire & Security designed and installed the security systems integrating with the existing services, delivering on time & on budget to the client & end users satisfaction.

Client Reference:

"Focus Fire & Security have assisted in the design & installation of the site wide security system, their professional attitude and knowledge have been invaluable with the installation and configuration of the equipment. On a number of occasions we have required assistance at very short notice and equipment and manpower have always been made available, their attitude has been professional throughout, the installation of the highest standard and the customer service second to none. I would not hesitate in recommending Focus Fire & Security to any prospective customers".
